

To whom it may concern:

This letter is to certify that Avcon Constructors Inc has performed substantial work over the last few years here at Six Flags Discovery Kingdom. For all of their projects: deadlines were met, communication was straight forward, their employees and subs always acted professionally. Cooperation and prompt response was given at all times.

We have contracted with Avcon for several large Capital projects including: demolition, grading, building structures, and a significant amount of concrete work for various uses.

Most recently, Avcon has outperformed our expectations for our Batman Roller Coaster project by doing whatever it took to meet our deadline and get the ride open under the rigid circumstances. Even with poor weather and time delays from other parties, Avcon worked through these obstacles and executed for us flawlessly for our largest and most important project in over 10 years.

Before the Batman Ride we utilized Avcon do our Harley Quinn ride and were so pleased with their performance we had to bring them back. To say the least they have become a company we can rely on for our large construction projects.

Currently Avcon is working on our Ocean Discovery Pool demolition project along with large portal footings for us. Their attention to detail and energy spent to make sure we get exactly what we envision is what keeps us coming back to them.

It would be my pleasure to work with Avcon Constructors Inc again in the future and I am more than happy to recommend them to other prospective clients.

Feel free to reach out with any questions.

Sincerely,

A handwritten signature in black ink, appearing to read "B. Charles".
